Domaine d'utilisation	Type
Stades	World Cup Special 2014

Curitiba is one of the cleanest and safest cities in Brazil and has an excellent metro bus system. This system will be much appreciated by the spectators who want to attend the football matches in the Arena de Baixada. The Arena de Baixada, formerly known as Estádio Joaquim Américo Guimarães, was originally built in 1914 and modernised in 2013 for the upcoming football event. The roof is now retractable, and new rows of seats were added to extend the capacity to 41,456.
