ARENA PANTANAL – CUIABÁ

l'aperçu

Domaine d'utilisation	Type
Stades	World Cup Special 2014

Visitors to the geographical centre of South America will not only find cattle farms and light industry but also the Arena Pantanal. It was built in 2010, in Cuiabá, a city with a population of only 554,000 and hence the smallest playing venue.
The stadium can accommodate almost 43,000 people but the modular structure allows for the upper parts to be dismantled such that the capacity will eventually be smaller.

Facts:
Construction period: 2010 to 2014
Capacity: 42,968

4 matches:
4 group matches

TROX contribution:
Ceiling diffusers
External weather louvres
Fire dampers
Multileaf dampers
Swirl diffusers
Ventilation grilles
Slot diffusers
