X-SENS

ADVANTAGES

- Individual room control
- Optimisation of the air handling unit based on ventilation and air conditioning parameters
 - Fan speed control based on the damper blade position of VAV terminal units
 - Control of the recirculation damper based on the air quality
 - Centralised air conditioning (heating/cooling) based on actual room temperatures
- Centralised alarm management and display of actual operating values
- Cost optimisation due to reduced number of data points
- Easy commissioning
