COMPACT VENTILATION UNITS WITH HEAT RECOVERY

THE PERFECT VENTILATION SOLUTION – FOR CLASSROOMS AND MUCH MORE BESIDES

Decentralised ventilation systems are ideal for energy-efficient refurbishment of schools and training facilities.

They are used for the controlled ventilation of classrooms, conference and meeting rooms, as well as for group rooms in daycare facilities for children.

The advantages at a glance:

- High air performance
- Heat recovery all year round
- Healthy moisture recovery
- Effective heating and cooling register
- Clean filtration
- Quiet operation, high energy efficiency
- Demand-based room control

Fresh air for learning and working. SCHOOLAIR-HV units for healthy air conditioning - please find more information in our brochure

IDEAL SOLUTIONS FOR BEAUTIFUL FAÇADES

FOR OFFICES, SCHOOLS AND KINDERGARTENS

Horizontal and **vertical** façade ventilation units for installation under sills, or above and to the side of windows

Underfloor units for underfloor installation adjacent to an external wall

Ceiling units for installation into suspended ceilings

Underfloor units, ceiling units and vertical units for installation next to a window are

ideal for **rooms with floor to ceiling glazing**.

Save costs throughout the product life cycle

Save on operation due to:

- Low energy requirement for air transport
- Ventilation and air conditioning based on occupancy
- Demand-based room air quality control

Save on construction due to:

- Reduced slab to slab height
- Minimal area requirement for technical equipment
- No ducts or shafts required
- Small unit base, hence only small floor area required

FIND OUT MORE

Would you like to know more about decentralised ventilation? Here's more information, ready for download:

- Façade ventilation systems for new and refurbished offices, schools and children's daycare facilities (brochure)
- Variety at a glance (overview)

The brochure gives you all the background information, while the overview helps you select the unit that best meets your requirements.
